## Section 5 Entity Report

## Section 5 Entity Report

## 1.0 INTRODUCTION

Section Five is a report on all entities contained in the version 1-98 DDM baseline. This includes all entities (Prime Words) in the DDDS that were in Candidate or Approved status by the DDM cutoff date. The report is alphabetical by entity name, and contains multiple lines of information per entity. The report contains the following information on each entity:

- Entity Name (prime word name in the DDDS)
  - DDDS Counter Number (on same line in report)
     DDDS Version Number (on same line in report)
     DDDS Status (on same line in report)
- Entity definition from the DDDS
- Attribute (Data Element) names captured within the Entity
  - Attribute Options:
    - "(PK)" if Attribute is part of the Entity Primary Key (on same line in report)
  - "(FK)" if Attribute is supplied by another Entity
     Attribute DDDS Counter Number (on same line in report)
     Attribute DDDS Version Number (on same line in report)
     Attribute DDDS Status (on same line in report)
